*Laverstock Park Farm located in Hampshire, produced the first serious buffalo mozzarella to be made in the UK.*

*Nothing is added to lengthen the shelf life, it is simply made with buffalo milk fresh from the dairy. The milk from their own herd of buffalo is especially sweet and fragrant thanks to our grass with 31 herbs, grasses and clovers.*

*Creamy white, smooth and delicate with a subtle tang, this is the one to beat. When mozzarella is fresh, you will experience a burst of freshness, the milk will ooze out... southern Italians say that if you don't have a mess on your face, you aren't eating mozzarella! This is what fresh mozzarella is about.*
